Ongoing developments

SERISS WP8 Survey Codings workshop
15 Februari 2019

Maurice Martens

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

- We want to present an international, comparable set of classified and structured codes to measure socio economic indicators. This set is validated and maintained by experts. We can use them to present innovative ways to better measure them.

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Surveycodings org will stay alive

- Further expand under new project:
  - Religion
  - Parents occupation
  - Food
- Maintain and improve current databases
- APP

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Surveycodings org will stay alive

- Further expand under new project:
  - Religion
  - Parents occupation
  - Food
- Maintain and improve current databases

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

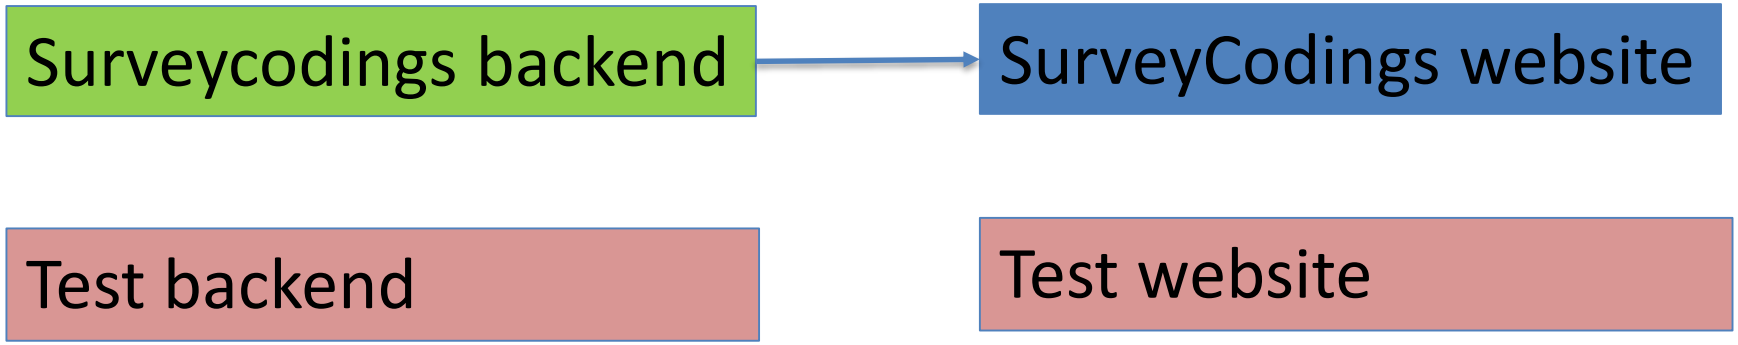

What are our plans?

- Technical
- Organizational

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Technical

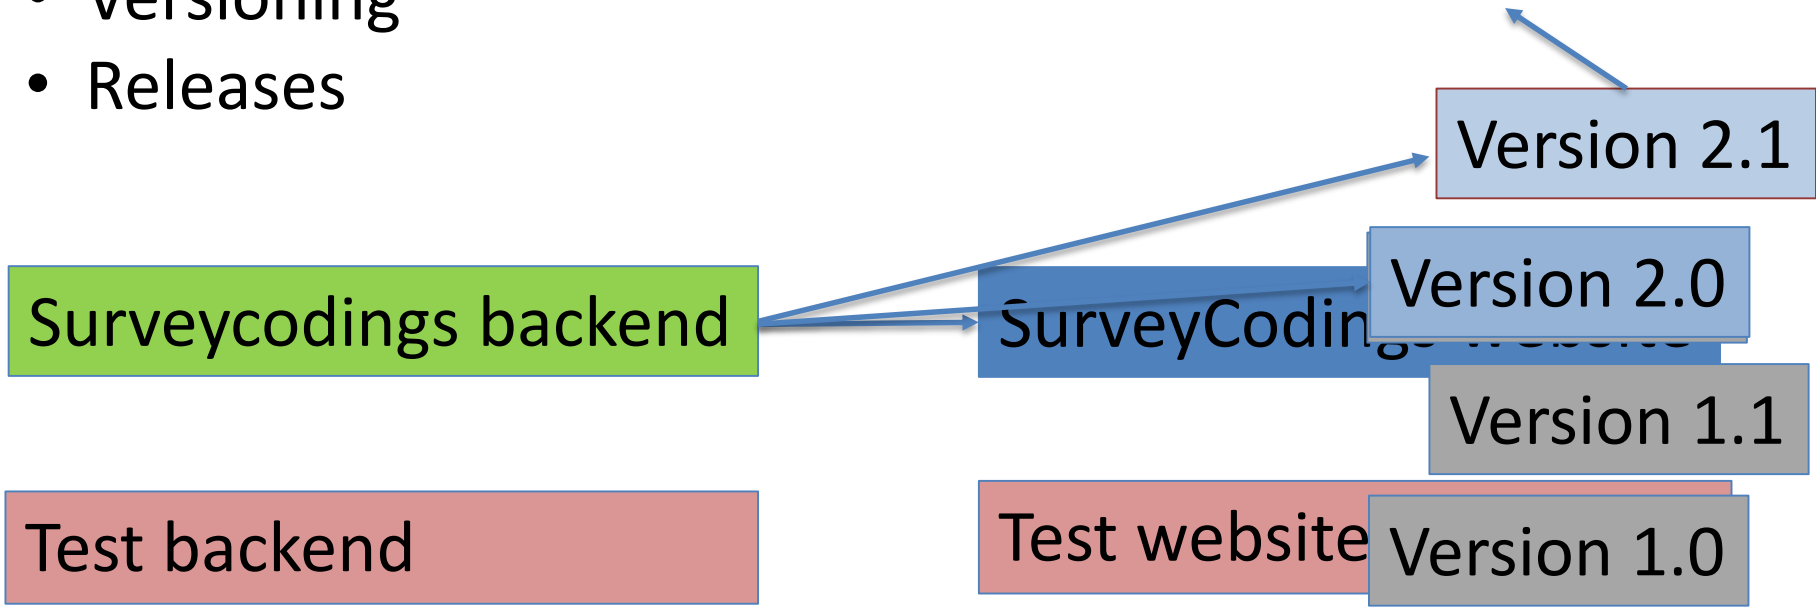

- Versioning
- Releases

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Technical

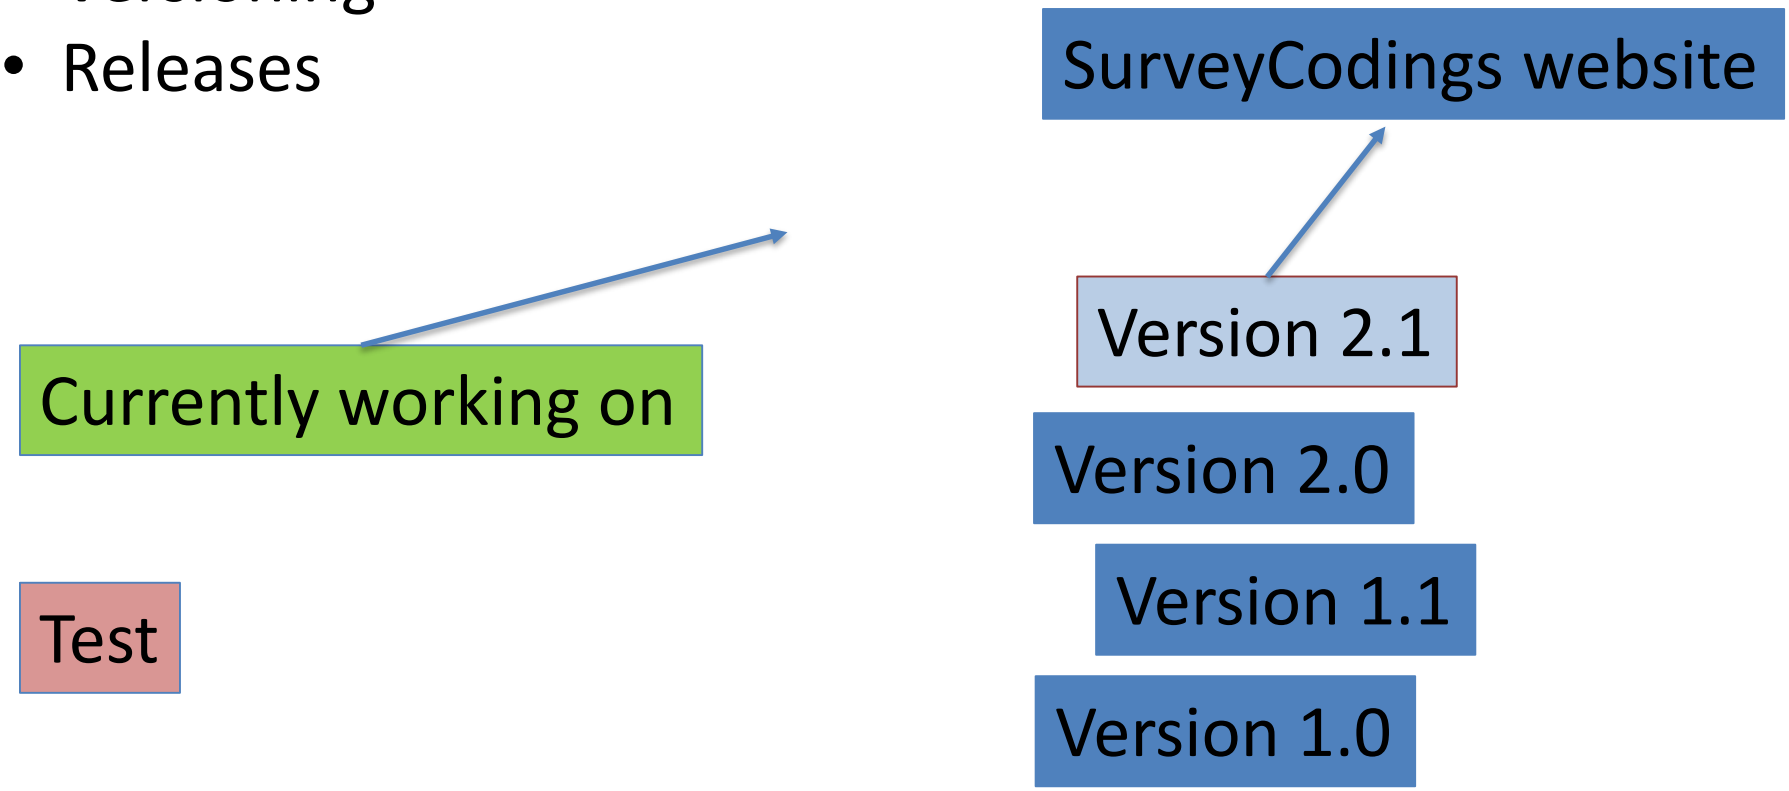

- Versioning
- Releases

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Technical

- Versioning
- Releases

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Technical

- Algorithms, currently very limited, the API provides basic search based on text matching for all. Education has a more elaborate scheme available.
- Would like to further expand the search algorithms library

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Organisation

- Long term stability

- Push to expert-group
- Follow the discussion, why adaptations?

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

What would that look like?

- Central Communication platform?
- Collect feedback via website
- Push to expert-group
- Follow the discussion, why adaptation

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

How could that look like?

- Reporting tool
- Report backend

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

Scientific

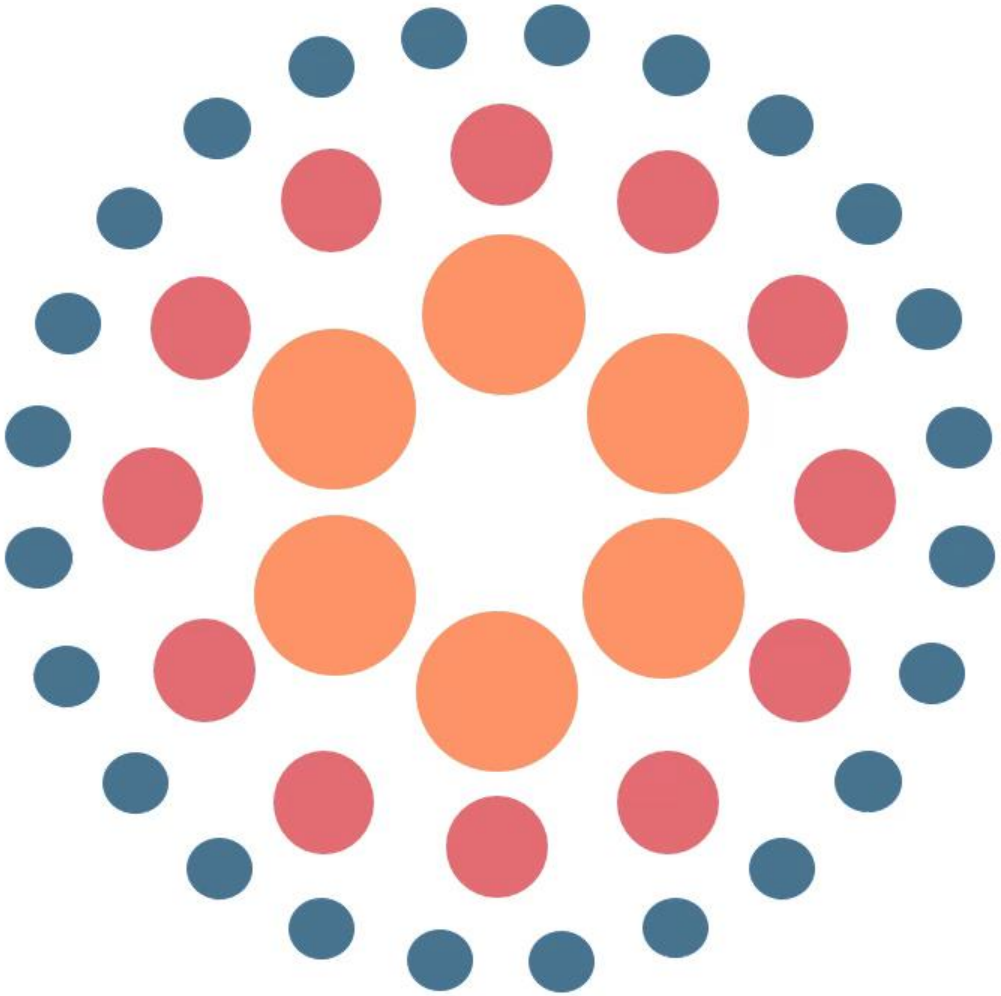

- Who decides what?
- Create governance?
- How to communicate?
- Proposed solution

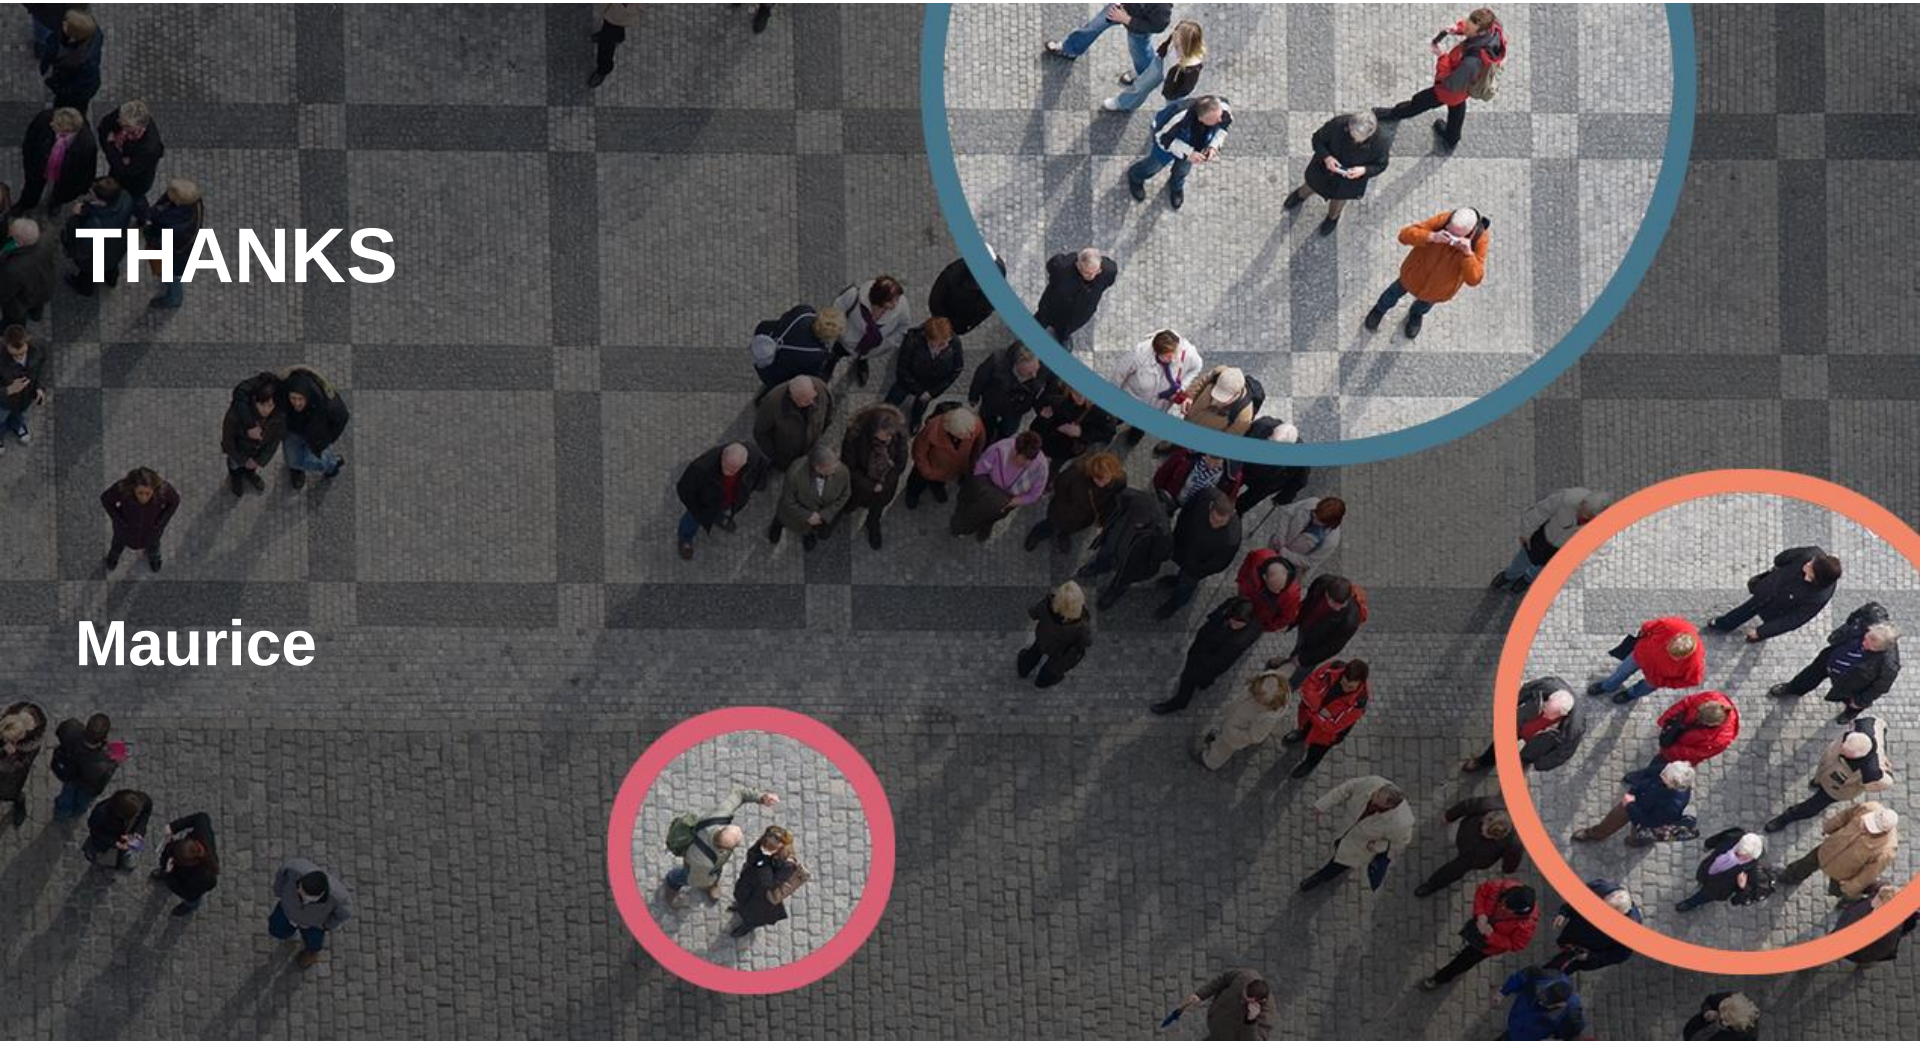

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

- **Community**

- Collect and disseminate examples, algorithms
- Make full lists available for download
- Sign on?

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 654221.

THANKS

Maurice
